DECISION-MAKING

PROFITABILITY

TRACEABILITY

TRACEABILITY

- Generation of barcode labels at each step of production
- Traceability management of all production inputs: batch numbers; extender used; straws types and lots; packaging equipment; and more.

PRODUCTIVITY

- Multisite connectivity with automatic synchronization
- Fully automated data upload to minimize human entry
- Connectivity of all laboratory equipment and peripherals to eSMILE

DECISION-MAKING

- Versatile Microsoft® SQL-based database
- Simplified in-house report management
- Modifiable templates report

OPTIONAL MODULES

- Storage module
Straw location input/output/transfer
- Health module
Veterinary tasks scheduling, history and reminder

 Increase PROFITABILITY
