Echo Touch

Touch screen

Thanks to the new interface system EchoTouch, only the necessary functions are present on the screen, making the work of the user faster and more efficient. The advanced settings remain of simple access as well.

Echo Voice

Voice command

The embedded software. EchoVoice gives you a voice control over the main functions of the scanner, allowing you to work with complete autonomy, even when you are further away from the device.

Echo Pad

Remote control access

Thanks to the application EchoPad installed on your Ipad, you have access to a second command board for your EXAPAD, it is then possible to pilot your ultrasound scanner remotely. Your own presets, saved in your Ipad, can be used on the EXAPAD.

EXAPad

Screen
15"
4 ports USB
(2 x 2.0 / 2 x 3.0)
Autonomy
2 hours
Weight
5,9 kg
Dimensions
39 x 30 x 7 (cm)

EXAPad mini

Screen
12"
2 ports USB
(3.0)
Autonomy
3 hours
Weigh
4 kg
Dimensions
32 x 25 x 5,8 (cm)
